**HEAVY MINERALS AND ARKANSAS BAUXITE DEPOSITS,
PULASKI AND SALINE COUNTIES, ARKANSAS. 1934-1935.**

<u>Item Number</u>	<u>Description</u>
NO-08811	<p>Envelope with:</p> <ul style="list-style-type: none">- folder #1 – Brief field notes on deposits at the Dixie Bauxite Company, American Cyanimid Company shaft, Crouch mine, and other locales. Drill hole logs for various Bauxite Test Holes: A1 – A9, B1-B5, C1-C13, C15, C1a, D1-Dw, E1-E2, F1-F4, G1-G4, CC1-CC3, CC16, H1-H2, J1-J4, M1-M3, N1. Notes on other drill holes are interspersed with these. Also, notes on mines including Mine #14, Pruden mine, Church mine, Hamp Smith mine. Notes on samples 1002A-1002B, 1003A-1003B, 1005A-1004D, 1005A-1005B, and other samples whose numbers reflect the source depth at the drill hole so the numbers are not unique;- folder #2 – Notes on sample analyses results; form letters signed by land owners/lessees giving the USGS permission to prospect on their lands; brief history of Arkansas bauxite district; production figures for 1923-1934 by company and by year, in Pulaski and Saline Counties; table summarizing annual production of bauxite in Pulaski and Saline Counties, by year, for 1923-1934; production of bauxite in Arkansas, listed by Company; 2 sheets describing locations of the Bauxite Test Holes; 2 maps on paper scraps showing locations of several drill holes; typed draft of abstract of report to be published by the Arkansas Geological Survey, with changes; revised typed abstract, with a few corrections, for report “Arkansas Bauxite Deposits,”; draft of text, “Current Bauxite Mining Activities I Arkansas”; statement giving estimated USGS expenses for Arkansas bauxite project for March 1 – June 15, 1935; results of chemical analyses on various samples from mines and test wells; text of presentation (?) by M.N. Bramlette, “Arkansas Bauxite Deposits” for the American Institute of Metallurgical Engineers, New York Meeting, February 1936. The text is very similar to the revised abstract above.
