SURVEY OF THE DESCHUTES RIVER, OREGON. 1909.

<u>Item Number</u>	<u>Description</u>
NO-12244	Traverse record book with field data related to a mapping traverse of the Deschutes River, Oregon, from its junction with the Columbia River to the mouth of the Crooked River. Note: Previous documentation for this notebook identifies the author as John L. Lewis, but this appears to be a mistake, as John Howard Lewis was the coauthor of USGS Water-supply paper 344 and Oregon State Engineer at the time of the study. 1909.

Published as: U.S. Geological Survey. Water-supply paper 344. 1914.
