(1906 – 1984)

NOTES, CORRESPONDENCE, PAPERS

1927 – 1984

(21.9 linear ft. and 11 map folders)

Edwin D. McKee was born in Washington, D.C. in 1906. He received a B.S. from Cornell University in 1929 and pursued graduate studies at Cornell, the University of Arizona, the University of California, and Yale University. Between 1929 and 1953 McKee served as Park Naturalist at Grand Canyon National Park, Assistant Director of the Museum of Northern Arizona, and professor and geology department head at the University of Arizona. In 1953 he joined the staff of the USGS, where his positions included chief of the Paleotectonic Map Section and research geologist. He retired in 1977. The main focus of McKee's career was the stratigraphy of the Grand Canyon, and his more than 40 published studies established him as the recognized geologic authority on the area. Among his many honors was the establishment of the McKee Chair at the Museum of Northern Arizona, the Distinguished Service Award from the Department of the Interior, and nine fossil species bestowed with his name.
