JOHN HARRIS STEWART
(1928 -)

NOTES, CORRESPONDENCE, PAPERS

1951 - 1965

(2.0 linear ft. and 2 map folders)

John Harris Stewart was born in Berkeley, California, in 1928. He received a B.S. from the University of New Mexico in 1950 and a Ph.D. from Stanford University in 1961. Stewart joined the staff of the USGS in 1951 and remained with the agency until his 1994 retirement. His areas of research included the regional stratigraphy of Triassic rocks of the Colorado Plateau, late Precambrian and Cambrian rocks in Nevada, California, and Mexico, and the general geology of Nevada. He is a fellow of the Geological Society of America.
